

LAPORAN UAS

PEMROGRAMAN BERORIENTASI OBJEK

Sistem Pendataan Toko Komputer Pemrograman Java & GUI

Java Swing

Disusun Oleh:

Muhammad Arif Rachman / 220916009

PROGRAM STUDI INFORMATIKA

FAKULTAS TEKNIK

UNIVERSITAS MULAWARMAN

2024

Langkah-langkah Pembuatan Aplikasi CRUD Java menggunakan GUI Java Swing

1. Membuat database dengan nama 'tokokomputer' dan membuat tabel di dalam database dengan nama 'komputer', 'orders' dan 'akun' untuk menyimpan data toko komputer, melakukan pemesanan dan akun user yang telah registrasi.

Database

#	Nama	Jenis	Penyortiran	Atribut	Tak Ternilai	Bawaan	Komentar	Ekstra	Tindakan
<input type="checkbox"/> 1	idProduk	varchar(255)	utf8mb4_general_ci		Tidak	Tidak ada			Ubah Hapus Lainnya
<input type="checkbox"/> 2	namaProduk	varchar(255)	utf8mb4_general_ci		Tidak	Tidak ada			Ubah Hapus Lainnya
<input type="checkbox"/> 3	harga	double			Tidak	Tidak ada			Ubah Hapus Lainnya
<input type="checkbox"/> 4	stock	int(11)			Tidak	Tidak ada			Ubah Hapus Lainnya
<input type="checkbox"/> 5	merekProduk	varchar(255)	utf8mb4_general_ci		Tidak	Tidak ada			Ubah Hapus Lainnya
<input type="checkbox"/> 6	Kondisi	varchar(50)	utf8mb4_general_ci		Tidak	Tidak ada			Ubah Hapus Lainnya

Tabel Komputer

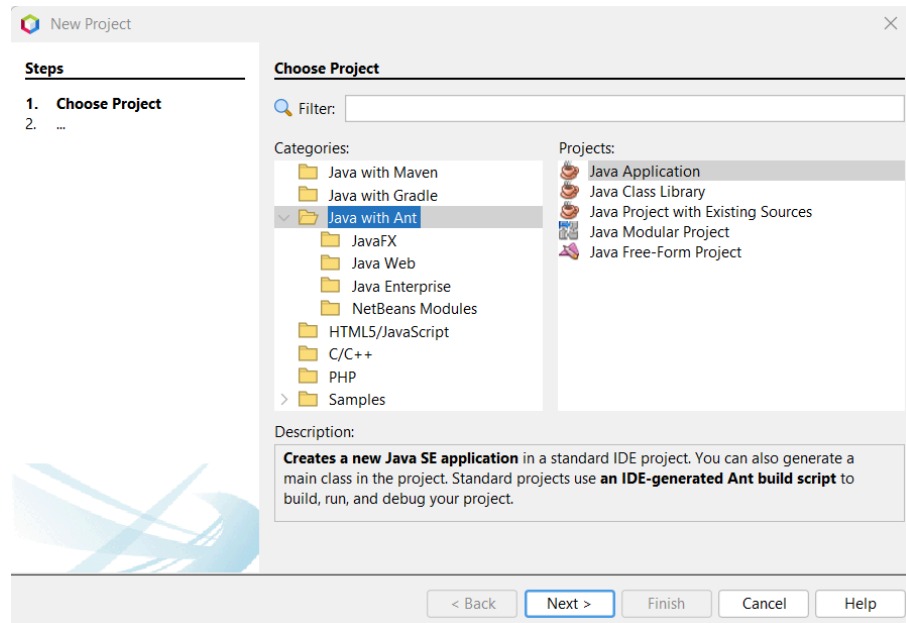

#	Nama	Jenis	Penyortiran	Atribut	Tak Ternilai	Bawaan	Komentar	Ekstra	Tindakan
<input type="checkbox"/> 1	orderId	int(11)			Tidak	Tidak ada		AUTO_INCREMENT	Ubah Hapus Lainnya
<input type="checkbox"/> 2	username	varchar(255)	utf8mb4_general_ci		Tidak	Tidak ada			Ubah Hapus Lainnya
<input type="checkbox"/> 3	idBaju	varchar(255)	utf8mb4_general_ci		Tidak	Tidak ada			Ubah Hapus Lainnya
<input type="checkbox"/> 4	orderDate	timestamp			Tidak	current_timestamp()			Ubah Hapus Lainnya

Tabel Orders

#	Nama	Jenis	Penyortiran	Atribut	Tak Ternilai	Bawaan	Komentar	Ekstra	Tindakan
<input type="checkbox"/> 1	id	int(11)			Tidak	Tidak ada		AUTO_INCREMENT	Ubah Hapus Lainnya
<input type="checkbox"/> 2	username	varchar(11)	utf8mb4_general_ci		Tidak	Tidak ada			Ubah Hapus Lainnya
<input type="checkbox"/> 3	password	varchar(11)	utf8mb4_general_ci		Tidak	Tidak ada			Ubah Hapus Lainnya
<input type="checkbox"/> 4	isAdmin	tinyint(1)			Tidak	Tidak ada			Ubah Hapus Lainnya

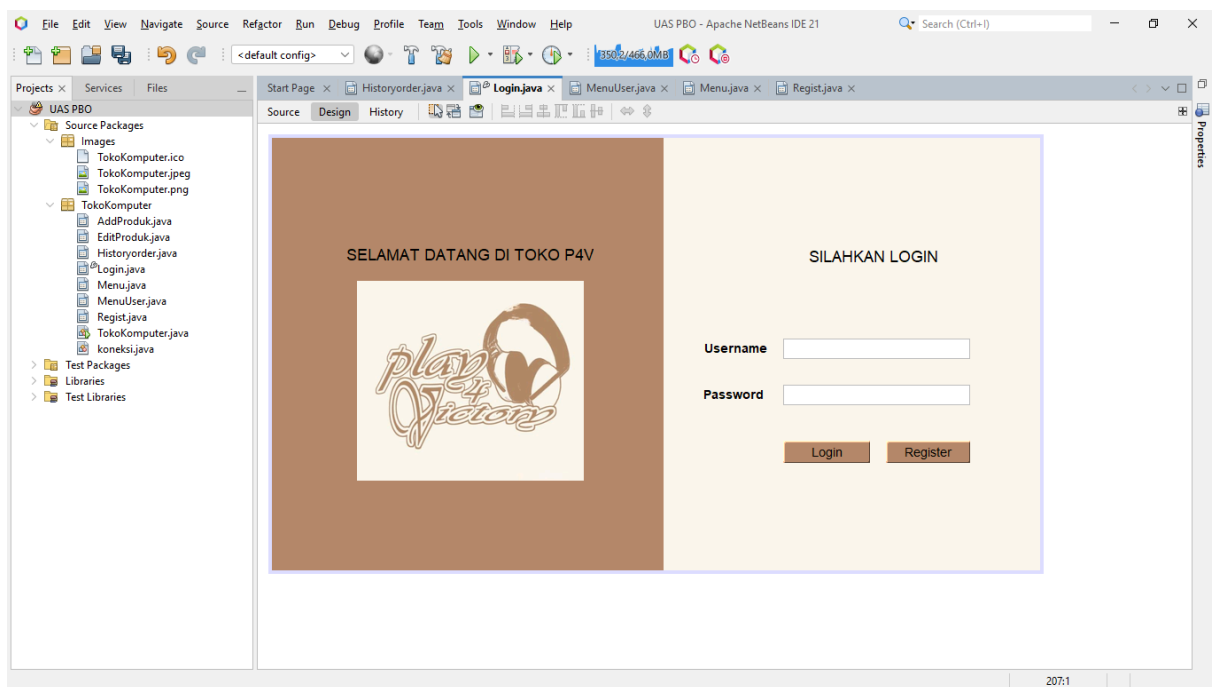

Tabel Akun

2. Membuat project baru pada Netbeans dengan memilih package dan jenis project, disini menggunakan Java Swing

Membuat New Project di Netbeans

3. Lalu buatlah *design* dengan menggunakan tools-tools yang tersedia

4. Buatlah package dengan nama 'TokoKomputer' lalu buat file koneksi dengan nama 'koneksi' untuk menghubungkan database dengan program dengan code seperti di bawah:

```
/*
```

* Click nbfs://nbhost/SystemFileSystem/Templates/Licenses/license-default.txt to change this license

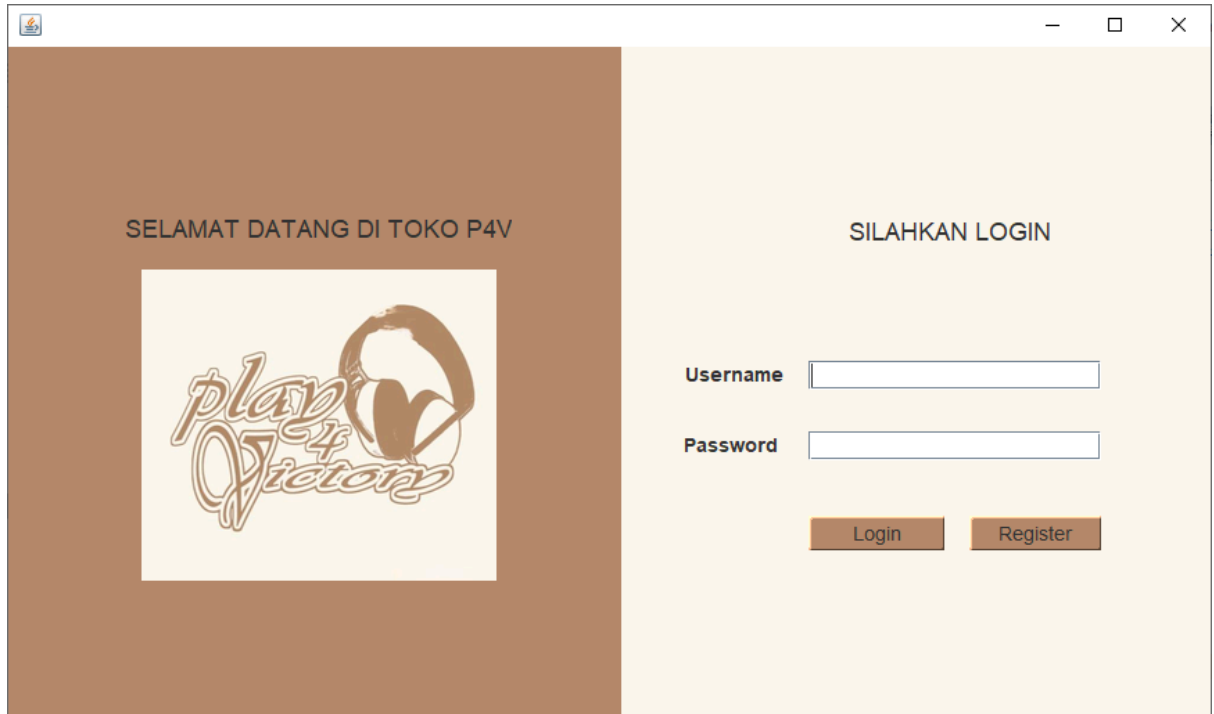

* Click nbfs://nbhost/SystemFileSystem/Templates/Classes/Main.java to edit this template

```
*/  
package TokoKomputer;  
  
public class TokoKomputer {  
  
    public static void main(String[] args) {  
        // TODO code application logic here  
        java.awt.EventQueue.invokeLater(new Runnable() {  
            public void run() {  
                new Login().setVisible(true);  
            }  
        });  
    }  
}
```

5. Lalu buat design interface masing masing menu

a. Menu Login

- Design

- Source Code

```
/*
 * Click
 nbfs://nbhost/SystemFileSystem/Templates/Licenses/license-default.txt to
 change this license
 * Click nbfs://nbhost/SystemFileSystem/Templates/GUIForms/JFrame.java to
 edit this template
 */
package TokoKomputer;

import java.sql.Connection;
import java.sql.PreparedStatement;
import java.sql.ResultSet;
import java.sql.SQLException;
import javax.swing.JOptionPane;

public class Login extends javax.swing.JFrame {

    public ResultSet rs;
    public static String IDU;
```

```

public Login() {
    initComponents();
}

c. Dashboard Admin

- Design

The screenshot shows a web application interface for an admin dashboard. At the top, there is a navigation bar with two buttons: "Manajemen Data" and "Logout". Below this is a search bar labeled "CARI BARANG" with a text input field. The main content area features a table with six columns: "ID Produk", "Nama", "Harga", "Stok", "Merek", and "Kondisi". The table contains five rows of product data. Below the table is a large, empty light gray rectangular area.

ID Produk	Nama	Harga	Stok	Merek	Kondisi
a1	Ryzen 3 3200g	1300000	5	AMD	Baru
a2	Vga RX 580	1000000	3	Nitro Amd	Bekas
a3	Cpu i3 12100f	1500000	5	Intel	Baru
a4	Monitor 144Hz	1800000	6	Viewsonic	Baru
a5	Vga Gtx 1660 Ti	2100000	3	Nvidia Asrock	Baru

d. Tambah Data (admin)

- Design

The screenshot shows a Java Swing window titled 'Tambah Data (admin)'. The window has a yellow background and a title bar with standard Windows controls (minimize, maximize, close). The main content area contains several input fields and buttons. On the left side, there are three input fields labeled 'ID Produk', 'Nama Produk', and 'Harga'. On the right side, there are two input fields labeled 'Stok' and 'Merek'. Below the 'Merek' field, there is a brown rectangular box labeled 'Kondisi' which contains two radio buttons: 'Baru' (selected) and 'Bekas'. At the bottom of the window, there are two buttons: 'Kembali' and 'Tambah'.

e. Edit Data (admin)

- Design

The screenshot shows a Java Swing window titled "Edit Data (admin)". The window has a standard title bar with a logo on the left and minimize, maximize, and close buttons on the right. The main content area has a light yellow background. It contains several input fields for editing product data: "ID Produk", "Stok", "Nama", "Merek", and "Harga". There is also a "Kondisi" section with two radio buttons labeled "Baru" and "Bekas". At the bottom, there are two buttons: "Kembali" and "Ubah".

g. Menu User (History Order)

- Design

The screenshot shows a Java Swing window with a title bar containing a standard icon, a minus button, a maximize button, and a close button. Inside the window, there is a button labeled 'Kembali' (Back) in the top-left corner. Below the button is a table with four columns: 'ID Order', 'Nama Produk', 'Harga', and 'Tanggal Order'. The table contains two rows of data. The first row has ID Order 1, Nama Produk 'Vga Gtx 1660 Ti', Harga '2100000.0', and Tanggal Order '2024-06-11 00:00:00'. The second row has ID Order 2, Nama Produk 'Monitor 144Hz', Harga '1800000.0', and Tanggal Order '2024-06-11 00:00:00'. The table is set against a light gray background.

ID Order	Nama Produk	Harga	Tanggal Order
1	Vga Gtx 1660 Ti	2100000.0	2024-06-11 00:00:00
2	Monitor 144Hz	1800000.0	2024-06-11 00:00:00
